

FOOD SAFETY POLICY

(HACCP FSP-1313-PP-02)

Platypus Print Packaging develops and produces a range of packaging for the food and beverage industry. It is our priority to provide food packaging that is safe and compliant with food safety standards. Platypus Print Packaging maintains independently audited HACCP food safety certification. We are consistent with our procedures and manufacture in a clean and safe working environment.

Our commitment to food safety is practiced by:

- Training staff on the importance of food safety and providing “food safe” work instructions.
- A dress and hygiene code that is communicated and followed by all staff and visitors to the site.
- Maintaining a regular cleaning program.
- Sourcing board, inks and coatings that meet food safety standards relevant to their application.
- Procedures and verification technology to prevent product mixing.
- Communicating the company’s food safety policies with all stakeholders.
- Compliance with food safety laws and regulations.
- Regularly reviewing and improving our food safety program.
- Maintaining HACCP food safety certification.

Our commitment to food safe packaging is unwavering and fundamental to the way we do business.

Aaron Lusch
General Manager
