Platypus Print Packaging develop and produce a range of packaging for the food and beverage industry.

It is our priority to provide food packaging that is safe and compliant with food safety standards.

Our HACCP program is currently being upgraded to meet The SQF Code for Manufacture of Packaging.

Platypus Print Packaging requires all staff, contractors, and visitors to understand their responsibility in ensuring food safety procedures are followed.

The objective of the food safety policy is to protect our customers and their brands. This is achieved by:

- Senior Management leading by example
- Regular review and continuous improvement of food safety programs
- Training staff on food safety policies, procedures, and work instructions
- Effectively communicating the Food Safety Culture to all site personnel in language understood by all.
- Promoting a food safety culture throughout the site and achieving this by continually developing the food safety culture plan
- Providing inductions and refresher training to all staff, contractors, and visitors
- A dress and hygiene policy that is communicated and followed by all staff and visitors
- Maintaining a regular cleaning and sanitisation program
- Sourcing board, inks and coatings that meet food safety standards for their intended use
- Procedures and verification technology to prevent product mixing
- Communicating the company's food safety policies with all stakeholders
- Compliance with food safety laws and regulations
- Maintaining HACCP food safety certification and implementation of SQF Food Safety Code for Manufacture of Packaging Materials.
- Establish and maintain a Food Safety Culture within Platypus
- Establish and continually improve the Food Safety Management System
- To comply with regulatory and customer requirements to supply Safe Food Packaging.
- Continually supply Safe Food Packaging.

Our commitment to food safe packaging is unwavering and fundamental to the way we do business.
